

Education Settings EV Charging Solutions

Why install EV chargers at your school?

Installing EV chargers demonstrates a commitment to sustainability and reinforces the importance of reducing carbon emissions. Schools play a vital role in educating the next generation about these environmental issues.

The Workplace Charging Scheme grant now enables you to claim up to 75% off the cost of purchasing and installing an EV charger. Here at Ratio we want to work with education settings to support you in maximising this offering.

Up to
75% off
the cost of
purchasing and
installing an EV
charger.

Department
for Transport

Workplace Charging Scheme for state-funded education institutions

The Department for Transport (DfT) has introduced a grant initiative allowing state-funded schools in England to obtain and install EV chargers. State-funded schools, colleges, nurseries and academies will now be able to claim up to **75% off the cost to buy and install charge points, up to £2,500 per socket.**

Eligibility criteria for the Workplace Charging Scheme for state-funded education institutions:

- ⚡ **An OZEV-authorized installer must install the Ratio charging points on your behalf**
- ⚡ **OZEV approved commercial chargepoints** such as the Ratio io6 or io7 installed at the premises
- ⚡ **Designated off-street parking** on your premises
- ⚡ **Received less than required maximum amount in financial assistance** over the past three years
- ⚡ **Not applied previously for the Workplace Charging Scheme or the EV infrastructure grant**

How do I get EV chargers installed?

Below are the 6 steps you will need to take to install a Ratio charger using the workplace charging scheme grant. Don't worry, we are here to help you along the whole process.

- 1  Ratio will recommend a local OZEV approved installer for site inspection.
- 2  The applicant completes the online government application form
- 3  Grant voucher received – valid for 180 days
- 4  Installation takes place – This must be completed within the 180 days
- 5  Voucher code provided to OZEV approved installer to process through Government website
- 6  Any remaining costs not covered by the grant are invoiced direct from installer to yourselves
